Ken S. did a temporary repair with gravel to the hole on Badger Ave south. Dennis Schwanebeck has been maintaining the spot as it is at the end of his driveway. Andy C. was asked to get a repair quote from Scott Construction. Meridan Rd north: Tony Suda from the Town of Washburn, wants to put in a turn around on Washburn's end of the road for use by the garbage trucks and grader. He wants the Town of Sherwood to pay for half the cost. We will wait to see the cost before making any decision. Tony Suda also said that Reinart farms will replace the gravel from the driveway into their field and Hwy 73 from removal of any mud or manure. Town of Washburn wants to raise a half of a mile of road on Meridan south. It would be submitted to the LRIP program by both towns. We want to know the costs and exactly how much the half mile is our town's responsibility before making any decisions. Andy C. will call McCoy Equipment for the grader maintenance.
- E. **Building Permits:** Margaret S. brought up the need to have building permits for the town. Permits would keep the town appraised for any structure being built in the town. This would also help the Assessor with accuracy in valuation of properties. The board will speak with the Assessor to get recommendations on building types and sizes for the permit. Most towns and counties require these types of permits. This subject will be put on the June meeting agenda.
- F. **Signs:** "Welcome" sign for the Town of Sherwood was turned down at this time. It was suggested that the chairman notify the Sheriff's department of the theft of road signs for the Sandhill and Sherwood roads. A letter to the editor was suggested so that people know that this is happening and costing them money to replace. Rick S. stated that the fire number sign has not been placed by the shed on Todd Rd.
