

3) A recyclable material specified in s. 1.11(5) through (15) for which a variance has been granted by the Department of Natural Resources under s. 287.11(2m), Wis. Stats., or s. NR 544.14, Wis. Adm. Code.

1.13 Care of Separated Recyclable Materials. To the greatest extent practicable, the recyclable materials separated in accordance with s. 1.11 shall be clean and kept free of contaminants such as food or product residue, oil or grease, or other non-recyclable materials, including but not limited to household hazardous waste, medical waste, and agricultural chemical containers. Recyclable materials shall be stored in a manner which protects them from wind, rain, and other inclement weather conditions.

1.14 Management of Lead Acid Batteries, Major Appliances, Waste Oil and Yard Waste. Occupants of single family and 2- to-4-unit residences, multiple-family dwellings and non-residential facilities and properties shall manage lead acid batteries, major appliances, waste oil, and yard waste as follows: (for example, will materials be collected curbside; should residents be directed to scrap metal operations or retail stores, should residents home compost, etc.)

- 1) Lead acid batteries shall be taken to Waste Management in Marshfield WI.
- 2) Major appliances shall be taken to Waste Management in Marshfield WI.
- 3) Waste oil: contact Waste Management.

1.15 Preparation and Collection of Recyclable Materials. Except as otherwise directed by the Department of Natural Resources, occupants of single family and 2- to-4-unit residences shall do the following for the preparation and collection of the separate materials specified in s. 1.11(5) through (15): (for example, will materials be collected curbside. This information could describe how materials should be prepared for processing by the recycling facility, such as rinsing containers and replacing caps, flattening cardboard boxes, do not crush cans, do not place in plastic bags, etc. The materials could be combined rather than listed separately.)

- 1) Aluminum containers, Bi-metal containers, Foam polystyrene packaging, Steel containers will be the responsibility of the resident to call Waste Management or contact the Department of Natural Resources for disposal locations.
- 2) Corrugated paper or other container board shall be broken down and placed in the Recycling can.
- 3) Glass containers, Magazines, Newspaper, Office paper, or rigid plastic containers shall be placed the Recycling can.

1.16 \*Responsibilities of Owners or Designated Agents of Multiple -Family Dwellings. 1) Owners or designated agents of multiple -family dwellings shall do all the following to recycle the materials specified in s. 1.11(5) through (15):

a) Provide adequate, separate containers for the recycling program established in compliance with the ordinance. The number of recycling containers shall equal or be greater than the number of trash containers and at least one of the following shall be met:

i. The minimum total volume of recycling container space is equal to 20 gallons per week per unit.

ii. The ratio of trash container volume to recycling container volume is at most 2:1.

iii. An alternative method that does not result in the overflow of recycling containers during the time period between collection of materials and delivery to a recycling facility.

b) Notify tenants in writing at the time of renting or leasing the dwelling and at least semi - annually thereafter about the established recycling program.

c) Provide for the collection of the materials separated from the solid waste by the tenants and the delivery of the materials to a recycling facility.

d) Notify tenants which materials are collected, how to prepare the materials to meet the processing requirements, collection methods or sites, and locations of drop- off collection sites to recycle materials not collected on -site.

2) The requirements specified in 1) do not apply to the owners or designated agents of multiple -family dwellings if the postconsumer waste generated within the dwelling is treated at a processing facility licensed by the Department of Natural Resources that recovers for recycling the materials specified in s. 1.11(5) through (15) from solid waste in as pure a form as is technically feasible.

1.17 \*Responsibilities of Owners or Designated Agents of Non- Residential Facilities and Properties.

1) Owners or designated agents of non-residential facilities and properties shall do all of the following to recycle the materials specified in s.1.11(5) through (15): (a) Provide adequate, separate containers for the recycling program established under this section. The total volume of recycling containers shall be sufficient to avoid overflowing during the time between collection of materials and delivery to a recycling g facility.

(b) Notify in writing, at least semi -annually, all users, tenants and occupants of the properties about the established recycling program.
